File dimensions: 300 X 250 px
File size: Standard GIF/JPG – 30K
Third-party ad tags accepted

3

Tags

The following assets should be provided for each ad:

1. The ad creative, either as an image URL or image file
2. The clickthrough link URL
3. An optional impression tracking pixel URL
4. Optional ad text for text ads only, unformatted but with inline hyperlinks permitted

National Journal can identify these URLs from standard ad tags in most cases. Please be aware that IFrames, JavaScript, and video cannot be placed in email newsletters. Third-party ad creative and reporting with impression and click tracking is recommended. If an image file is provided without third-party impression or click tracking, National Journal may be unable to provide detailed ad performance metrics.
